Introduction:

Dynamic Configurable Product helps to show configurable product title, description, short description,SKU according to simple product selection.

This extension makes the configurable products more attractive and informative.

Example: Shoes have multiple colors and sizes and their Configurable Products.Those all simple products of configurable products have their own description and other information.

Default Magento not show simple product detail on configurable

product after selection. Using our extension you can easily display to

detail on configurable products.

Features:

1. Admin can Enable/Disable this setting.
2. Helps customers to find particular details about products.
3. Make Configurable product to More attractive and informative.
4. Allows configurable products dynamically by changing their information like SKU, description and other.
5. Admin can select the information which they want to show on frontend.
