Facebook WhatsApp Share for

Introduction:

Social media is a great way to get your products in front of more people. If you have an e-commerce website or another online business that was created on Magento, and If you want to expand your business or make your products reach as many people as possible with social media, then you just need to install our extension,

Facebook is the number one social media website, and WhatsApp is the number one social media application—that's why ESTS has created the "FWshare" extension. This extension is helpful to share your products from person to person from apply Facebook or WhatsApp Share, and customers can share the URL of products with anyone.

The first step is to install "FWshare". After configuring this extension, you can see on your site the Share Button of Facebook or WhatsApp is inserted. This button lets people share the website's products with friends, relatives, anybody, etc.

Front office options:-

- Customer's can see the WhatsApp share button on the product page.
- Customer's can see the Facebook share button on the product page.

Back office options:-
