Design your own newsletter by just changing the above entries.

First option is enable which should be yes to activate the module.

Second option is Show name field which should be yes to enable the the name option on front-end.

Third option comes is Many times subscriptions which should be kept no so as the customer shouldn't have to subscribe again and again.

Then the all other options for the design purpose,you can choose your own entries and design the front-end look as per your wish (it consists of background-color,font-color and other color settings)
